

CONCLUSION

The claims as presently amended are readable on the claims as originally presented while corresponding to those remarks submitted in Applicants' Amendment dated January 8, 2003. For example, claim 1 once again recites a data entity, specifically an entity embodied in a computer-readable medium as was suggested at page 3 of the *Office Action* mailed August 1, 2002. Claim 8 once again recites a database. Claim 15 once again recites a method of forming/making a data entity in the context of a computer readable medium as was suggested at page 3 of the *Office Action* mailed August 1, 2002. Finally, claim 21 once again recites a method of matching reservables.

Applicants respectfully request the Examiner continue with substantive examination of the present application. The Examiner is invited to contact the Applicants' undersigned representative with any questions concerning this application.

Respectfully submitted,
Garret Swart et al.
